Buying or updating a CRM system?

We have done the research for you.

Info-Tech has thoroughly evaluated the products of 14 key CRM vendors.

Each vendor evaluation was based on **unique, real world perspective, gained from extensive interviews with current users** of the newest product versions in question.

CRM SELECT™ Info-Tech's Vendor Evaluations will help you with your technology decision by providing:

- 1.** Real feedback and opinions from clients currently using the products. Client satisfaction levels are ranked not only on key product attributes, but also on the product's ability to achieve business goals.
- 2.** Clear evaluations and comparisons to best-in-class of more than 25 product features and functions - many comparisons in an easy to assess graphical presentation.
- 3.** Expert analysis of vendor strategy, stability, and ability to meet the unique needs of mid-sized enterprises.
